

# Upcoming Free Lectures

Lecture 1: Liz Flyntz • September 18th, 7:30 PM

## ***Products and Platforms as Art: Food, Sex, Finance***

Liz Flyntz will present her recent work on Club Lalena, a blockchain-based platform for valuation of volunteer labor, and Epicurean Endocrinology, an artistic research project that also seeks to develop product.

Lecture 2: J.T. Rinker • October 2nd, 7:00 PM

## ***Soliloquy***

J.T. Rinker's current practice includes traditionally defined work in acoustic, electroacoustic, computer assisted and interactive computer composition, as well as cross-disciplinary work in multi-media installations, physical computing, kinetic sculpture, film, and video.

Lecture 3: Cy Keener • October 16th, 7:00 PM

## ***Embodying Data: Environmental Sensors and Kinetic Sculpture as a Working Method***

Cy Keener is an interdisciplinary artist focused on creating field recordings of natural phenomena and experiential representations of these recordings. His gallery representations are often at the installation scale – coaxing strings of numbers into immersive light, space and sound.
